

## REMARKS

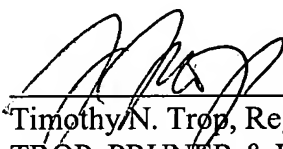

Compounds II-1 to II-6 clearly have moieties having double bonds to an oxygen atom. Therefore, they do not meet the claim limitation requiring the moieties be entirely sigma bonded. The same may be said of compound II-22. Compound II-18 does not have three moieties bonded to it. Therefore, it, too, cannot meet the claims.

The claim is directed to the embodiment of Figure 1.

Therefore, reconsideration is respectfully requested.

Respectfully submitted,

Date: February 21, 2006
